sfark79, Mac OS X, 30-May-2009 02:29:46 (C) 2007-2017 sfark79, others. Sound Solution 1.31b (Winamp Plugin, The One WITH All The Presets!) sfark79, Mac OS X, 30-May-2009 02:29:46 (C) 2007-2017 sfark79, others. Free update for version 1.31b of this popular Winamp plugin which includes major enhancements to the presets file import/export/compatibility system and the file browser. These improvements make Sound Solution the 1st and only plug-in to allow users to explore and save all presets across all versions of Winamp. Plug-in is also the only plug-in to allow loading of presets from the file browser view. Other plug-ins simply import the same presets into the existing user data for each version of Winamp. This Free Upgrade (one-time payment) also fixes some minor bugs and includes the ability to load most presets across all versions of Winamp. (See the "important notes" section below). Included with this version: • Fixes problems on systems running OS X Lion with all versions of Winamp • Fixes problems where users are prompted to reboot when attempting to launch the plug-in. • Fixes problem where Winamp shows blank label if Winamp is set to use default of creating a 2nd label in Winamp's Preferences/Basic/Appearance. • More controls for loading/saving presets • New screen for managing the loading of presets. • Changed tag/extension system to allow most correct name matching. • Added ability to import presets from browser. • Added ability to download presets to iTunes (via ID3 tag) • Added ability to "save as" to iTunes • Added ability to use "GetInfo" when importing and exporting presets • Added ability to export presets to browser • Added ability to export to.txt • Added ability to export to.CSV • Added ability to export to.XML • Fixed problem where browser view does not properly show folders and files in old versions of Winamp. • Corrected the "Advanced" option in the load presets dialog. • Added ability to use "GetInfo" when importing/exporting presets. • Added "Use File Path" as option to the load presets dialog. • Other minor bug fixes Important notes • Updates from the Win 82157476af
